Bilingual: English and Spanish

AWARDS & PARTICIPATION

Student Show, Communication
Arts Technology

Dean's List - Scholastic
Achievement

Scholarships based on academic
merit

The Jefferson Review Periodical
literary-art magazine

EXPERIENCE

Web Design Intern

Andrew Kung Group — Louisville, KY

Sep 2026 - Present

- Designed and built four pages for the Uncle Boogie's Bourbon website in WordPress (Divi), working independently within the site's existing visual style; the firm reviewed and approved the final work.
- Designed a chapter navigation system for an 11-chapter page: a side menu on desktop that becomes an accordion on mobile.
- Restructured the Experience page into a card system with a details lightbox and a request form that fills in the selected experience automatically.
- Explored and documented eight design versions, presenting each one for review before building the final page.
- Worked within the client's rules: existing copy only, minimal JavaScript and page-level CSS.

Federal Work-Study Student Worker

Jefferson Community & Technical College Print Lab — Louisville, KY

Oct 2024 - Present

- Support students and staff with photo printing, mounting and Adobe Creative Suite; troubleshoot software and printing equipment.
- Help plan photoshoot events for the Communication Arts Technology program.
- Designed InvenTrack, an inventory management app for the print lab, built with AI-assisted development.

Photographer & Photo Editor

Bella Baby Photography — Louisville, KY · Estudio Esplendor — Holguín, Cuba

May 2017 - Feb 2024

- Ran photo sessions and handled professional editing, retouching and color grading for portraits, events and commercial work.
- Guided clients through product and package selection and managed communication and orders.

Oracle Database Administrator / Data Analyst

ONAT — Holguín, Cuba

Sep 2011 - Mar 2017

- Managed Oracle databases and SQL systems, maintaining data integrity and system reliability.
- Organized and analyzed institutional data for reporting and supported internal teams with technical troubleshooting.
